

# BE A POSSIBILITY THINKER IN 2009

1. Define your vision and set goals
2. Assess your current situation objectively
3. Identify Opportunities
4. Make Smart Choices
5. Take Action

Remember, this is a dynamic process as life is full of changes. Keep the steps above alive and you'll achieve your goals.

# KNOW YOUR INVESTMENTS

**JMMB** is a brokerage house that sells mainly GOJ securities which are fully guaranteed by the Government of Jamaica. What this means is that when you make an investment with JMMB you are actually purchasing a part of these securities. When you invest in GOJ securities, all of your money is guaranteed by the Government of Jamaica.

## DID YOU KNOW?

- On your *Sure Investor* and *SaveSmart* statements as well as on *Moneyline*, you can see exactly what the underlying investments are and how the funds have been allocated in GOJ securities.

## FINANCIAL TIPS

- There are excellent investment opportunities right now in both J\$ and US\$ instruments. Interest rates are high and inflation is falling, resulting in healthy real rates of return for you, our clients.
- Take advantage of these high interest rates and jump start your financial plan.

**Call your JMMB advisor today to take advantage of the current opportunities and to create your financial plan for 2009.**
