GROUP CEO'S COMMENTARY

Stellar Growth and Performance

The JMMB Group's (the Group) growth trajectory continued in earnest with the year to date results surpassing the previous financial year's performance. This is despite the lingering uncertainty and operational challenges brought on by the pandemic. The strength of this performance again underscores the efficacy of the Group's maintained focus on growing core revenue, diversification, and building out digital services, solutions and channels to improve client experience and efficiency.

Regional Diversification

Efforts to diversify contributors to profitability as well as drive growth across all business lines and operating territories continue to yield positive results. For the period, Jamaica contributed 57% to the Group's net profit performance while the Dominican Republic and Trinidad and Tobago operations contributed 32% and 11% respectively.

Digital Imperatives

- ✓ The quarter saw the completion of the upgrades of all ATMs to Smart ATMs in Jamaica and the
 commencement of upgrades in Trinidad and Tobago. These upgrades are central to the Group's focus on
 delivering new banking solutions aimed at improving client access and complementing 'No Fee' solutions
 such as the Ez Access and Ez Start chequing accounts in Jamaica.
- ✓ Banking operations in the Dominican Republic were brought on to the Group's core banking platform bringing all three operating territories on to the same platform, a significant milestone in the Group's standardization programme. Efficiencies in processing and reporting as well as enhanced solutions are expected to result from this.
- ✓ New projects in support of the Group's business line diversification strategy will kick off in the final quarter including a new system to improve loan processing as well as a new card solution aimed at widening clients' payment options.

Finishing Strong

Focus on growth will continue particularly as we explore value-creating acquisitions and initiatives in the region. Our Regional Integrated Financial Services business model build out also continues in earnest and we expect to close the year strong maximizing value for all our stakeholders.

GROUP FINANCIAL PERFORMANCE

Net Operating Revenue

The JMMB Group posted net operating revenue of J\$21.98 billion for the nine months ended December 31, 2021, reflecting growth of J\$5.44 billion or 33%. All the revenue lines increased, especially net interest income, trading gains and fees and commission income. This was facilitated by increased economic activity relative to the prior period as well as accommodative monetary policies for most of the period. Further, our clients continue to demonstrate confidence in the value of solutions and services which was evidenced by strong growth in the loan and investment portfolios. Thus, net interest income moved from J\$7.58 billion to J\$8.98 billion.

Trading gains grew by 45% to J\$7.15 billion due to improved market activity. Global investor sentiment improved when compared to the prior period, despite the threat of new Covid-19 variants impeding global economic recovery. There was strong demand for emerging market assets as global interest rates were low and investors were in search of yields. Within this context, we continued to successfully execute our trading strategy and were able to identify and capitalize on market opportunities that delivered superior results.

Fees and commission income was 58% higher at J\$3.73 billion and reflected increased economic activity as well as significant growth in managed funds and collective investment schemes across the Group. Our clients continue to be reassured by our expertise and our dedication to ensuring that they meet their financial life goals.

Segment Contribution

The table below shows the contribution to net operating revenue by segments.

Net Operating Revenue	J\$'000	Contribution (%)
Financial & Related Services	13,694,285	62%
Banking & Related Services	8,109,080	37%
Other	177,563	1%
Total	21,980,928	100%

The Banking & Related Services segment contributed J\$8.11 billion or 37% of net operating revenue. This represented a 24% increase when compared to the prior period and was largely on account of strong growth in the loan book which

translated into increased net interest income.

The Financial and Related Services segment contributed J\$13.69 billion or 62% of net operating revenue and reflected an increase of 40%. This was buoyed by increased trading activity and other business activities as well as increased client funds under management.

Nine-month Period Ended 31 December 2021

(Expressed in Jamaican dollars unless otherwise indicated)

Operating Efficiency

Operating expenses moved from J\$10.66 billion to J\$13.24 billion as for a part of the prior period we implemented short term cost containment measures to dampen the effect of the pandemic. Since then, we have pivoted to growth mode and this is reflected in our costs. Operating expenses included inflationary increases as well as strategic spend related to our longer term initiatives aimed at improving the posture and positioning of the Group. Nevertheless, the operational efficiency improved from 64% to 60% and we will continue to focus on projects to cause scale and efficiency and thereby contribute to long term shareholder value.

Interest in Associated Company

For the quarter ended 31 December 2021, the Group has not recorded any share of profits from its associated company Sagicor Financial Company Limited (SFC). SFC has opted to publish its audited results for the year ended 31 December 2021, utilising 90 day provision under the Toronto Stock Exchange (TSX), hence the results for the quarter was not available. The Group will therefore, reflect any earnings from SFC in its fourth quarter ended 31 March 2022.

GROUP FINANCIAL POSITION

Total Assets

At the end of the reporting period, the JMMB Group's asset base totalled J\$609 billion, up J\$95.3 billion or 19% relative to the start of the financial year. This was mainly on account of a larger loan and investment portfolio. The investment portfolio grew by 23% to J\$327.86 billion, while loans and notes receivable increased by 15% to J\$137.74 billion. The credit quality of the loan portfolio continued to be comparable to international standards and we continue to maintain enhanced monitoring to mitigate against possible deterioration in credit quality.

Growth in the asset base over the nine-month period was funded by increases in customer deposits and repos. Customer deposits increased by J\$22.15 billion or 17% to J\$150.46 billion, while repos grew by J\$52.33 billion or 23% to J\$280.06 billion. Further, the current reporting period included multilateral funding of US\$66M to support our SME initiatives. Thus, due to other financial institution was J\$12.31 billion compared to J\$486 million in the prior period.

Capital

Company	Regulatory Measure	Minimum Requirement	31-Dec-21
Jamaica Money Market Brokers Limited	Regulatory capital to risk weighted assets ratio	10%	15.13%
JMMB Bank (Ja) Limited	Regulatory capital to risk weighted assets ratio	10%	12.50%
JMMB Bank (T&T) Limited	Regulatory capital to risk weighted assets ratio	10%	15.29%

Over the nine-month period, shareholders' equity increased by 7% to J\$65.67 billion. This was largely on account of high profitability for the period. Thus, the Group and all individually regulated companies continues to be adequately capitalized. The performance of the

major subsidiaries with capital adequacy ratios is shown in the table above.

Off-Balance Sheet Funds under Management

In alignment with the Group's strategy to provide complete, customized financial solutions for each client, we experienced growth in our off-balance sheet products which include pension funds, unit trusts and money market funds. The total invested in off-balance sheet products as at the end of December 2021 stood at J\$187.38 billion compared to J\$152.07 billion as at end of December 2020.

The JMMB Group in the Community

JMMB Group continues to establish genuine relationships with the wider society, in the countries in which it operates, namely: Jamaica, Trinidad and Tobago and Dominican Republic; in keeping with its commitment to helping others to realize their greatness. The Group's corporate social responsibility efforts during this period was mainly centred on: capacity building, entrepreneurial initiatives, transformational training and other community outreach efforts, designed to empower vulnerable groups.

The JMMB Joan Duncan Foundation, **in Jamaica**, spearheaded several corporate social responsibility initiatives, with a focus on capacity building and community outreach. The Foundation joined with other corporate donors, in October, to assist to make the field hospital at University Hospital of the West Indies (UHWI) a reality, with a donation of approximately J\$1.7 million (US\$12,000). This facility, caters to COVID-19 patients, and comes in response to the dramatic increase in hospitalization, as the country continues to go through waves of infections. Additionally, the Foundation pledged J\$2M to the Rotary Club of St. Andrew North for the purchasing of a mobile unit on behalf of the Jamaica Cancer Society (JCS). This unit will assist the JCS to transport medical and support staff, equipment and supplies for screening, treatment and public awareness campaigns, in keeping with the organization's mandate to provide treatment and prevent cancer across Jamaica.

The Foundation also donated 1100 care packages, valued at J\$4.5M, to vulnerable individuals island wide with the assistance of JMMB Group team members, in partnership with a wide cross-section of charities. This initiative is a part of the JMMB Group's Share the Love annual Christmas outreach programme.

Additionally, the Foundation launched a career guidance and transformational initiative for its tertiary scholarship recipients, dubbed, 'Leadership, Involvement and Innovation, Financial Literacy & Education (LIFE) Accelerator' programme. This is designed to assist these budding professionals to better transition to the world of work and tap into the skills and mindset needed to live purpose-driven lives. The Foundation also continues to support transformational training in selected educational institutions, and provided financial backing to a range of educational initiatives and community outreach efforts.

Over the period, the Corporate Social Responsibility (CSR) committee in **Trinidad & Tobago**, spearheaded initiatives to continue supporting the less fortunate and vulnerable groups and environmentally sustainable projects, in that country. As such the JMMB team donated towels and blankets to several children's homes, as well as lent financial support to the Living Waters Cancer Hospice. Additionally, the company supported the Sustainable Studies in Action Environment Tobago project, which seeks to incorporate in a structured and creative manner of executing the 17 Sustainable Development Goals through the existing schools agriculture/ agri-science programme.

In the **Dominican Republic**, the corporate social responsibility efforts were largely geared towards support of entrepreneurship and assisting vulnerable individuals. With the launch of the new brand campaign, in that country, the Dominican Republic team, introduced a concept called "*Murals of Change*;" which saw JMMB partnering with local businesses and artists to paint external walls to beautify communities, while spreading the campaign message. Through this initiative, JMMB Group supported emerging artists, by promoting their work and helped these businesses to solidify their financial goals.

In keeping with its partnership with the UNPHU entrepreneurship center, JMMB continues to provide financial advisory services, facilitate the promotion of products and services, trainings and workshops for these budding entrepreneurs, who are a part of the programme. Additionally, the team remains committed to supporting the welfare and nutritional needs of children at selected homes and orphaned children, as well as providing financial backing for community outreach initiatives.

2. Summary of Significant Accounting Policies

(a) Basis of preparation

The Group's condensed consolidated financial statements have been prepared in accordance with International Financial Reporting Standards (IFRS). The condensed consolidated financial statements should be read in conjunction with the accounting policies as set out in Note 2 and 35 of the audited financial statements for the year ended 31 March 2021.

All amounts are stated in Jamaican dollars unless otherwise indicated.

Amendment to IAS 1, *Presentation of Financial Statements* and IAS 8, *Accounting Policies, Changes in Accounting Estimates and Errors* is effective for annual periods beginning on or after January 1, 2020, and provides the following definition of 'material' to guide preparers of financial statements in making judgements about information to be included in financial statements.

"Information is material if omitting, misstating or obscuring it could reasonably be expected to influence decisions that the primary users of general purpose financial statements make on the basis of those financial statements, which provide financial information about a specific reporting entity."

The Group does not expect the amendment to have a significant impact on its financial statements.

2. Summary of Significant Accounting Policies (continued)

(b) Basis of consolidation

The consolidated financial statements include the assets, liabilities and results of operations of the Company and its subsidiaries presented as a single economic entity.

Subsidiaries are all entities over which the Company has the power to govern the financial and operating policies, generally accompanying a shareholding of more than one half of the voting rights of an investee, where there is exposure to variability of returns and the Company can use its power to influence the returns. The existence and effect of potential voting rights that are currently exercisable or convertible are considered when assessing whether the Company controls another entity. Subsidiaries are consolidated from the date on which control is transferred to the Group. They are no longer consolidated from the date that control ceases.

Intra-group transactions, balances and unrealised gains on transactions between Group companies are eliminated. Unrealised losses are also eliminated unless the transaction provides evidence of impairment of the asset transferred. Accounting policies of the subsidiaries are consistent with those of the Group.

The Group uses the acquisition method of accounting for business combinations. The cost of acquisition is measured as the fair value of the assets given, equity instruments issued and liabilities incurred or assumed at the date of exchange. Identifiable assets acquired and liabilities and contingent liabilities assumed in a business combination are measured at their fair values at the acquisition date, irrespective of the extent of any non-controlling interest. The excess of the cost of acquisition over the fair value of the Group's share of the identifiable net assets acquired is recorded as goodwill. If the cost of acquisition is less than the fair value of the net assets of the subsidiary acquired, the difference is recognised directly in the consolidated profit and loss account.

The Group uses predecessor value (book value) method of accounting for business combinations with entities under common control. Any differences between the consideration paid and the net assets of the acquired entity is recognised in equity.

(i) Non-controlling interests

Non-controlling interests (NCI) are measured at their proportionate share of the acquiree's identifiable net assets at the acquisition date.

Changes in the Group's interest in a subsidiary that do not result in a loss of control are accounted for as equity transactions.

(ii) Loss of control

When the Group loses control over a subsidiary, it derecognises the assets and liabilities of the subsidiary, and any related non-controlling interest (NCI) and other components of equity. Any resulting gain or loss is recognised in profit or loss. Any interest retained in the former subsidiary is measured at fair value.

2. Summary of Significant Accounting Policies (continued)

(b) Interest in associated company

An associated company is an entity over which the Group has significant influence but not control, generally accompanying a shareholding between 20% and 50% of the voting rights. Investments in associates are accounted for by the equity method of accounting and are initially recognised at cost. The Group's investment in associated company includes goodwill (net of any accumulated impairment loss) identified on acquisition.

3. Earnings per stock unit

Earnings per stock unit ("EPS") is computed by dividing profit attributable to the equity holders of the parent of J\$8,280,434,912 (2020 – J\$3,848,868,139) by the weighted average number of stock units in issue during the period, numbering 1,955,552,532 (2020 – 1,955,552,532).

4. Managed funds

The Group acts as agent and earns fees for managing clients' funds on a non-recourse basis under a management agreement. At 31 December 2021, funds managed in this way amounted to J\$187,381,872,000 (2020 – J\$152,065,370,000).

5. Comparative Information

Where necessary, comparative figures have been reclassified to conform to changes in presentation in the current period.
