(Expressed in Jamaican dollars unless otherwise indicated)

DIRECTORS' STATEMENT

PERFORMANCE HIGHLIGHTS

Net Operating Revenue J\$6.55 billion, down 5%

Net Interest Income J\$2.91 billion, up 2%

Net Profit J\$1.97 billion, up 2%

Earnings per Stock Unit J\$0.98, up J\$0.10

The Directors are pleased to announce that the JMMB Group Limited posted a net profit of J\$1.97 billion and earnings per share of J\$0.98 for the three months ended 30 June 2022.

GROUP CEO'S COMMENTARY

The JMMB Group posted solid results in the first quarter of its thirtieth year of operations. The Group continues to derive significant benefits from the consistent execution of its diversification strategy. The quarter's performance is largely underpinned by the improved performance of key business lines in Trinidad and Tobago as well as the contribution of J\$1.26 billion from its associated company, Sagicor Financial Company Limited (SFC).

Having come through the short to medium term shocks brought on by the pandemic over the last two years, the Group has managed to successfully pivot to a focus on growth in its major key performance indicators. The current financial year is now however, contextualized by rising global interest rate and an ongoing geopolitical crisis which has exacerbated global supply chain disruptions and commodity prices. With this backdrop, the Group's focus has been refined as "smart growth" which reflects driving growth from core operations and includes deriving the most from its operating territories which are rebounding and/or experiencing faster growth. While rising interest have negatively impacted gains on securities trading, the Group has reflected positive growth from net interest income, foreign exchange trading, income from capital markets and collective investment schemes as our clients continue to demonstrate confidence in our solutions and leverage our expertise.

Smart Growth - Revenue & Geographic Diversification, Strong Capital Management

The Group's "smart growth" strategy now includes an emphasis on strategic revenue diversification, strong capital management, and growing core activities in key business lines. This has thus included a shift to the utilization of less capital, a focus on off balance sheet funds and deriving core revenue from FX gains, capital markets and the banking business line.

Additionally, the Group's year over year first quarter growth in net profit was due in part to the 23.33% stake in SFC. This acquisition continues to deliver considerable value to the Group and underscores the efficacy of the Group' inorganic growth strategy.

Also contributing to this performance is the Group's operations in the Dominican Republic which contributed 25% of operating revenue. This performance again underscores the continued value of the market and the Group's continued and aggressive execution of its diversification strategy there. In keeping with this is the most recent acquisition in the

Three Months Highlights

(Expressed in Jamaican dollars unless otherwise indicated)

market by JMMB Holding Company SRL's, a subsidiary of JMMB Group Limited, which acquired 100% shareholding in Dominican Republic-based Banco Múltiple Bell Bank SA, marking the Group's entry into the market's commercial banking sector. With this acquisition, the Group's operations in this territory are now rounded out to include a full range of investment management services, pension funds management and commercial banking services. Through this, the Group is now to set to further deepen its presence in the market inclusive of the roll out of a full range of online banking as well as niche card and payment solutions and services.

In the upcoming quarters, focus on geographic diversification will remain with sharp focus on Trinidad and Tobago, where the operating environment is currently more accommodative to growth. Business line diversification will also continue to be important with the fund management business line specifically targeted for growth through new and existing mutual fund products to support further diversification and financial goal attainment for clients. Additionally, there will be a strategic focus on capital efficient growth from lending as well as opportunistic growth in the investment portfolio as well as an emphasis on revenue diversification as the Group expands its payments solutions suite with the roll out of e-commerce and niche card solutions in the upcoming quarter. With this, the Group expects to continue to deliver solid results and value to stakeholders for the remainder of the financial year.

GROUP FINANCIAL PERFORMANCE

Net Operating Revenue

The JMMB Group posted net operating revenue of J\$6.55 billion for the three months ended June 30, 2022, reflecting a decline of 5%. The operating environment was quite challenging when compared to the prior period. For one, there was rising inflation which reflected the war in Ukraine and the attendant increase in geo-political uncertainty; supply chain disruptions as well as other Covid-related factors. Central banks across the world, as a part of their inflation-targeting regime, have responded by increasing interest rate and reducing market liquidity. This had a particularly negative effect on trading gains.

Trading gains fell by 58% to J\$1B as given higher interest rates, investors were de-risking and as a result there was reduced demand for emerging market assets. Consequently, asset prices fell and trading activity was reduced. This was contrary to the prior period, then investor sentiment was high and interest rates were low. Therefore, investors were in search of yields and there was high demand for emerging market assets.

All other major revenue line items increased, especially fees and commission income. This was facilitated by increased economic activity as all the territories in which we operate are in recovery mode. In fact, the Dominican Republic has recovered to pre-pandemic levels. Thus, fees and commission income was 75% higher at J\$1.67 billion and reflected significant growth in managed funds and collective investment schemes across the Group. Our clients continue to be reassured by our expertise and our dedication to ensuring that they meet their financial life goals. Further, our clients continue to demonstrate confidence in the value of solutions and services which was evidenced by strong growth in the loan and investment portfolios. Thus, net interest income moved from J\$2.86 billion to J\$2.91 billion.

Three Months Highlights

Three-month period ended 30 June 2022

(Expressed in Jamaican dollars unless otherwise indicated)

Segment Contribution

The table below shows the contribution to net operating revenue by segments.

Net Operating Revenue	J\$'000	Contribution (%)
Financial & Related Services	3,231,512	49%
Banking & Related Services	3,263,916	50%
Other	57,747	1%
Total	6,553,175	100%

The Banking & Related Services segment contributed J\$3.23 billion or 50% of net operating revenue. This represented a 32% increase when compared to the prior period and reflected strong growth in the loan book which translated into increased net interest income. Also, there were higher trading gains and fees.

The Financial and Related Services segment contributed J\$3.26 billion or 49% of net operating revenue and reflected a decline of 25%. This largely reflected lower trading gains.

Operating Efficiency

Operating expenses moved from J\$4.72 billion to J\$5.32 billion as we continued to grow in a cost efficient manner. This included inflationary increases as well as strategic spend related to our longer term initiatives aimed at improving the posture and positioning of the Group. Thus, operational efficiency moved from 69% to 81%. Nevertheless, we continued to focus on projects to cause scale and efficiency and thereby contribute to long term shareholder value.

GROUP FINANCIAL POSITION

Total Assets

At the end of the reporting period, the JMMB Group's asset base totalled J\$624.89 billion, up 2% relative to the start of the financial year. This was mainly on account of a larger loan portfolio which grew by 7% to J\$152.5 billion. The credit quality of the loan portfolio continued to be comparable to international standards and we continue to maintain enhanced monitoring to mitigate against possible deterioration in credit quality.

Growth in the asset base over the three-month period was funded in part by increases in multilateral funding and repos. An additional tranche of funding was received from IDB Invest, a member of the Inter-American Development Bank Group. This is earmarked for the SME segment and will improve the capacity of the JMMB Bank (JA) to continue building its SME solutions suite. Also, repos grew by 2% to J\$305.49 billion.

Three Months Highlights

(Expressed in Jamaican dollars unless otherwise indicated)

Capital

Company	Regulatory Measure	Minimum Requirement	30-Jun-22
Jamaica Money Market Brokers Limited	Regulatory capital to risk weighted assets ratio	10%	17.79%
JMMB Bank (Ja) Limited	Regulatory capital to risk weighted assets ratio	10%	12.22%
JMMB Bank (T&T) Limited	Regulatory capital to risk weighted assets ratio	10%	15.69%

Over the three-month period, shareholders' equity decreased by 10% to J\$50.67 billion. Despite posting significant profit for Q1, this was completely offset by further decline in investment revaluation reserve. For the current reporting period, bond prices and by extension investment revaluation reserve

continued to be negatively impacted by rising interest rates, increased global uncertainty, rising commodity prices as well as supply chain disruptions.

Nevertheless, the Group continues to be adequately capitalized and all individually regulated companies within the Group continues to exceed their regulatory capital requirements. The performance of the major subsidiaries is shown in the table above.

Off-Balance Sheet Funds under Management

In alignment with the Group's strategy to provide complete, customized financial solutions for each client, we experienced growth in our off-balance sheet products which include pension funds, unit trusts and money market funds. The total invested in off-balance sheet products as at the end of June 2022 stood at J\$190.08 billion compared to J\$170.68 billion as at end of June 2021.

The JMMB Group in the Community

JMMB Group continues to establish genuine relationships with the wider society, in which it operates, in keeping with its commitment to help others to realize their greatness. During this period, the Group's corporate social responsibility efforts was largely focused on: educational initiatives, transformational training, entrepreneurship and other community outreach initiatives.

The JMMB Joan Duncan Foundation in **Jamaica**, focused primarily on nation-building initiatives, educational development, and transformational training. With a desire to continue to support education, the JMMB Joan Duncan Foundation donated 400 tablets, valued at approximately J\$10 million. This initiative assisted students to recover from learning loss, due to the interruption of face-to-face classes and the digital divide in online learning, caused by the pandemic. The Foundation partnered with the Beverley Manley Duncan Foundation, schools and other charitable organizations islandwide to award hundreds of disadvantaged students with tablets to support their learning. Additionally, the Foundation opened application for its annual scholarship programme, that is designed for promising students, who are financially challenged. These initiatives are in keeping with the Foundation's commitment to develop youth, through education and empower them to unearth their greatness, and thereby fulfil their goals and dreams.

Having signed a memorandum of understanding (MOU) with Mico University College, last year, to embed the transformational programme, Conversations for Greatness (CFG), as part of the teacher training curriculum, the Foundation welcomed its first cohort of 135 Mico students. This MOU is expected to assist with the sustainability of a transformational mindset in the education sector, through one of the key stakeholders – teachers. This is the core aim of the CFG programme; thereby causing a ripple-effect of the positive outcomes of the programme across the education system in Jamaica. Sam Sharpe Teachers' College also came on board, and signed a MOU, and the Foundation is looking to extend this programme to other teachers' colleges. As another part of the sustainability of CFG, the Foundation continues to provide this transformational training programme online via its Conversations for Greatness app. Hundreds of individuals from community groups, voluntary and service organizations and the beneficiaries who have received support from the Foundation, have been trained using the CFG App.

In addition, the Foundation offered ongoing CFG workshops to participants islandwide, in the Step-to-Work programme implemented by the Ministry of Labour and Social Security (MLSS). This programme is focused on bolstering the labour capabilities and empowering the Programme of Advancement Through Health and Education (PATH) participants of working age. Over 300 individuals have benefitted from the CFG programme as part of this BiZStart 101 component in the Steps-to-Work programme, that is geared towards entrepreneurship. In extending the transformational conversation on a national level, the 9th annual Joan Duncan Memorial lecture sought to address the pervasive mindset in our society, which accepts unethical practices as normal. The lecture which pays tribute to the late co-founder, Joan Duncan, was held under the theme, "A Suh De Ting Set": The Urgent Need to Bring Back Moral and Social Ethics to our Public and Private Priorities," held on May 15 on TVJ.

The Foundation continues its support for sporting development and has provided financial for the Jamaica Football Federation (JFF) to offset training of coaches and made a donation to the Jamaica Netball Association (JNA).

In the **Dominican Republic**, the team has focused its efforts in supporting youth development through entrepreneurship, financial literacy and community outreach. As such, the team continues to partner with the UNPHU entrepreneurship center, to provide financial advisory services, facilitate in the promotion of products and services, trainings and workshops for these budding entrepreneurs, who are a part of the programme. In addition, JMMB is seeking to broaden its support of this initiative with the launch of a programme called **Conexion Unphu JMMB**, later this year, which is intended to provide various trainings to established entrepreneurs.

Three Months Highlights

Three-month period ended 30 June 2022

(Expressed in Jamaican dollars unless otherwise indicated)

As part of its community outreach efforts, the team remains committed to supporting the welfare and nutritional needs of children at selected homes and orphaned children, as well as providing financial backing for community outreach initiatives. The JMMB team has also participated in several financial literacy workshops at organizations in a bid to empower individuals to make smart financial decisions.

Over the period, the Corporate Social Responsibility (CSR) committee in **Trinidad & Tobago**, spearheaded efforts to support community outreach initiatives and entrepreneurship. The team partnered with Youth Training and Employment Partnership (YTEP) programme, which is designed to inculcate a culture of entrepreneurship among economically and socially vulnerable youth and unemployed individuals. The programme offers microentrepreneurship training and funding for the top three participants of the business plan and elevator pitch competition. Additionally, the team donated to other community projects.

General

The Directors thank and acknowledge all our loyal, supportive and valuable shareholders, clients and staff who continue to contribute to our ongoing success.

Notes to the Financial Statements

Three-month period ended 30 June 2022

(Expressed in Jamaican dollars unless otherwise indicated)

2. Summary of Significant Accounting Policies

(a) Basis of preparation

The Group's condensed consolidated financial statements have been prepared in accordance with International Financial Reporting Standards (IFRS). The condensed consolidated financial statements should be read in conjunction with the accounting policies as set out in Note 2 and 35 of the audited financial statements for the year ended 31 March 2022.

All amounts are stated in Jamaican dollars unless otherwise indicated.

Amendment to IAS 1, *Presentation of Financial Statements* and IAS 8, *Accounting Policies, Changes in Accounting Estimates and Errors* is effective for annual periods beginning on or after January 1, 2020, and provides the following definition of 'material' to guide preparers of financial statements in making judgements about information to be included in financial statements.

"Information is material if omitting, misstating or obscuring it could reasonably be expected to influence decisions that the primary users of general purpose financial statements make on the basis of those financial statements, which provide financial information about a specific reporting entity."

The Group does not expect the amendment to have a significant impact on its financial statements.

Notes to the Financial Statements

Three-month period ended 30 June 2022

(Expressed in Jamaican dollars unless otherwise indicated)

2. Summary of Significant Accounting Policies (continued)

(b) Basis of consolidation

The consolidated financial statements include the assets, liabilities and results of operations of the Company and its subsidiaries presented as a single economic entity.

Subsidiaries are all entities over which the Company has the power to govern the financial and operating policies, generally accompanying a shareholding of more than one half of the voting rights of an investee, where there is exposure to variability of returns and the Company can use its power to influence the returns. The existence and effect of potential voting rights that are currently exercisable or convertible are considered when assessing whether the Company controls another entity. Subsidiaries are consolidated from the date on which control is transferred to the Group. They are no longer consolidated from the date that control ceases.

Intra-group transactions, balances and unrealised gains on transactions between Group companies are eliminated. Unrealised losses are also eliminated unless the transaction provides evidence of impairment of the asset transferred. Accounting policies of the subsidiaries are consistent with those of the Group.

The Group uses the acquisition method of accounting for business combinations. The cost of acquisition is measured as the fair value of the assets given, equity instruments issued and liabilities incurred or assumed at the date of exchange. Identifiable assets acquired and liabilities and contingent liabilities assumed in a business combination are measured at their fair values at the acquisition date, irrespective of the extent of any non-controlling interest. The excess of the cost of acquisition over the fair value of the Group's share of the identifiable net assets acquired is recorded as goodwill. If the cost of acquisition is less than the fair value of the net assets of the subsidiary acquired, the difference is recognised directly in the consolidated profit and loss account.

The Group uses predecessor value (book value) method of accounting for business combinations with entities under common control. Any differences between the consideration paid and the net assets of the acquired entity is recognised in equity.

(i) Non-controlling interests

Non-controlling interests (NCI) are measured at their proportionate share of the acquiree's identifiable net assets at the acquisition date.

Changes in the Group's interest in a subsidiary that do not result in a loss of control are accounted for as equity transactions.

(ii) Loss of control

When the Group loses control over a subsidiary, it derecognises the assets and liabilities of the subsidiary, and any related non-controlling interest (NCI) and other components of equity. Any resulting gain or loss is recognised in profit or loss. Any interest retained in the former subsidiary is measured at fair value.

Notes to the Financial Statements

Three-month period ended 30 June 2022

(Expressed in Jamaican dollars unless otherwise indicated)

2. Summary of Significant Accounting Policies (continued)

(b) Interest in associated company

Associated company is an entity over which the Group has significant influence but not control, generally accompanying a shareholding between 20% and 50% of the voting rights. Investments in associates are accounted for by the equity method of accounting and are initially recognised at cost. The Group's investment in associated company includes goodwill (net of any accumulated impairment loss) identified on acquisition.

3. Earnings per stock unit

Earnings per stock unit ("EPS") is computed by dividing profit attributable to the equity holders of the parent of J\$ 1,915,667,000 (2021 – J\$1,713,765,000) by the weighted average number of stock units in issue during the period, numbering 1,955,552,532 (2021 – 1,955,552,532).

4. Managed funds

The Group acts as agent and earns fees for managing clients' funds on a non-recourse basis under a management agreement. At 30 June 2022, funds managed in this way amounted to J\$190,936,461,271 (2021 – J\$170,683,726,336).

5. Comparative Information

Where necessary, comparative figures have been reclassified to conform to changes in presentation in the current period.
