### PERFORMANCE HIGHLIGHTS

Net Profit of J\$3.19 billion, grew by 77.6% Earnings per Stock Unit of J\$1.95, up J\$0.74 Net Interest Income up 34.1% Profit before taxation of J\$3.67 billion, grew by 65.1% Efficiency ratio 59.7%

The Directors are pleased to announce that the JMMB Group has posted a net profit of J\$3.19 billion and earnings per share of J\$1.95 for the nine month period ended 31 December 2012. These results which includes a one-off gain of J\$1.61 billion from acquisition of Capital & Credit Financial Group (CCFG) represent a or 77.6% improvement over the prior period.

For the nine month period, Net Interest Income (NII) showed positive growth year-over-year moving from J\$2.59 billion to J\$3.48 billion, an increase of J\$882.9 million or 34.1%. This increase was driven mainly by increase in portfolio from acquisition of CCFG which contributed J\$347.0 million or 13.4% and remaining J\$535.9 million or 20.7% from continued growth and effectively managing the investment portfolio and cost of funds. Other operating revenues, namely foreign exchange margins from cambio trading and commission income also reflected increases of 40.6% and 129.1% respectively which were driven largely by increased volume activity.

Operating expenses increased by J\$848.3 million or 38.9% to J\$3.03 billion compared to J\$2.18 billion for the prior year. This increase was mainly attributable to operating costs for CCFG which comprise J\$486.9 million or 57.4% and the remaining J\$361.4 million or 42.6% due mainly to performance incentive paid to staff in the third quarter, one-off integration costs, growth in subsidiaries in the regional markets, and normal inflationary increases.

Our associated company's performance, IBL Banking Group, continues on a positive trajectory contributing J\$64.3 million for the period, an increase of J\$46.1 million or 252.9%, having recovered from adverse impact in prior year on its loan portfolio. Our Dominican Republic subsidiary continues to produce strong results with profits improving by 449.4%% to J\$486.4 million.

The total asset base of the JMMB Group increased by J\$36.1 billion or 28.9% for the period, moving from J\$124.74 billion as at 31 March 2012 to J\$160.86 billion. Excluding the acquisition of the CCFG investment portfolio which amounted to J\$18.6 billion, the Group's investment portfolio increased by J\$4.9 billion or 4.4%. This growth highlights our clients continued confidence and support which is a critical driver of the Group's sustained growth and profitability.

#### **Regulatory Capital Requirements**

The company continues to exceed its regulatory capital requirements. The company's capital to risk weighted assets ratio stood at 19.3% whereas the Financial Services Commission (FSC) benchmark stipulates a minimum of 10%. The company's capital to total assets ratio was 11.9% (2011 - 12.4%) whereas the FSC benchmark is 6%.

#### Corporate Social Responsibility (CSR) – Standing For All

The JMMB Group's proud role in community development and nation building was fully activated during this quarter as the company kept an unwavering focus on social transformation in areas such as education, sports, health and cultural events. Charged by its mantra of the Power of One – One Team and One Love – JMMB remained dedicated to the advancement of all people of the region. For the third quarter, the Group contributed J\$6.65 million to CSR initiatives such as:

- In Jamaica, the company continued to champion the cause of children when it hosted the 11th Annual Pickney Love concert in December 2012, previously staged by the Capital and Credit Financial Group (CCFG) which it acquired last year. The family themed event delivered a thrilling entertainment package to raise funds for the Dare to Care Children's Home, a haven for children living with HIV/AIDs.
- Significant investments were also made in the areas of youth skills training and job creation through a J\$5 million contribution to the Youth Upliftment Through Employment (Y.U.T.E.) programme. The company's other trademark charity – the Community for the Upliftment of the Mentally III (CUMI) – also received support from the Group
- Additionally, JMMB offered brand sponsorships to several other groups and organisations to aid in their outreach and development initiatives. These include the Constant Spring Golf Club, Agency for Renewal, Jamaica Down Syndrome, UTech School of Advanced Management, Chin Yees Travel Service and Panache Entertainment.

The IBL Banking Group in Trinidad and Tobago, continued to invest in 'Mental Math' – an annual inter school math Olympiad for primary schools. In the Dominican Republic, a campaign to encourage financial literacy in children was activated in partnership with Junior Achievement, through its 'My Money Business' seminars.

#### General

The JMMB Group continues to focus on its key strategic imperatives of restructuring and integrating CCFG, building core revenues across diversified business lines locally and through our regional territories in order to drive long term, sustainable growth and further enhance shareholders' value. The Group will continue to further strengthen its local and regional presence in Jamaica, Dominican Republic and Trinidad & Tobago as part of its strategic objective to become an integrated regional financial institution.

The Directors extend their sincere appreciation to our clients, team members and shareholders who continue to support and contribute to the success of the JMMB Group.

Notes to the Financial Statements

# 31 December 2012

(Expressed in Jamaican dollars unless otherwise indicated)

## 1. Identification (Continued)

Following the acquisition of 93.14% of the share capital of Capital & Credit Financial Group Limited (CCFG) on 29 June 2012, JMMB, pursuant to Section 209 (1) of the Companies Act 2004 of Jamaica, compulsorily acquired the remaining 6.86% shares on 11 August 2012.

Capital & Credit Merchant Bank Limited has two subsidiaries, Capital & Credit Securities Limited and Capital & Credit Fund Managers Limited. Both subsidiaries are incorporated and domiciled in Jamaica.

## 2. Summary of Significant Accounting Policies

## (a) Basis of preparation

The Group's consolidated financial statements have been prepared in accordance with International Financial Reporting Standards (IFRS). These consolidated financial statements have been prepared under the historical cost convention as modified by the revaluation of available-for-sale financial assets and financial assets at fair value through profit or loss, as well as investment properties.

There have been no changes in accounting policies since the most recent audited accounts as at 31 March 2012.

All amounts are stated in Jamaican dollars unless otherwise indicated.

## (b) Consolidation

(i) Subsidiaries

Subsidiaries are all entities over which the Group has the power to govern the financial and operating policies generally accompanying a shareholding of more than one half of the voting rights. The existence and effect of potential voting rights that are currently exercisable are considered when assessing whether the Group controls another entity. Subsidiaries are fully consolidated from the date on which control is transferred to the Group. They are de-consolidated from the date on which control ceases.

The purchase method of accounting is used to account for the acquisition of subsidiaries by the Group. The cost of an acquisition is measured as the fair value of the assets given, equity instruments issued and liabilities incurred or assumed at the date of exchange, plus costs directly attributable to the acquisition. Identifiable assets acquired, liabilities and contingent liabilities assumed in a business combination are measured initially at their fair values at the acquisition date, irrespective of the extent of any minority interest. The excess of the cost of acquisition over the fair value of the Group's share of the identifiable net assets acquired is recorded as goodwill. If the cost of acquisition is less than the fair value of the net assets of the subsidiary acquired, the difference is recognised directly in the profit and loss account.

Inter-company transactions, balances and unrealised gains on transactions between group companies are eliminated. Unrealised losses are also eliminated unless the transaction provides evidence of impairment of the asset transferred. The accounting policies of subsidiaries have been changed where necessary to ensure consistency with the policies adopted by the Group.

Notes to the Financial Statements **31 December 2012** (Expressed in Jamaican dollars unless otherwise indicated)

## 2. Summary of Significant Accounting Policies (Continued)

## (b) Consolidation (continued)

(ii) Associates

Associates are all entities over which the Group has significant influence but not control, generally accompanying a shareholding of between 20% and 50% of the voting rights. Investments in associates are accounted for by the equity method of accounting and are initially recognised at cost. The Group's investment in associates includes goodwill (net of any accumulated impairment loss) identified on acquisition.

The Group's share of its associates' post-acquisition profits or losses is recognised in the profit and loss account; its share of post-acquisition movements in reserves is recognised in reserves. The cumulative post-acquisition movements are adjusted against the carrying amount of the investment. Unrealised gains on transactions between the Group and its associates are eliminated to the extent of the Group's interest in the associates.

### (c) Segment reporting

A segment is a distinguishable component of the Group that is engaged either in providing related products or services (business segment), or in providing products or services within a particular economic environment (geographical segment), which is subject to risks and rewards that are different from those of other segments. The Group's activities are organised into three main business segments:

- i) Financial and related services which include securities brokering, stock brokering, portfolio planning, funds management and investment advisory services.
- ii) Banking and related services which include taking deposits, granting loans and other credit facilities and foreign currency trading.
- iii) Other represents remittance and related services, insurance brokering, investment and real estate holding.

## (d) Taxation

Income tax on the profit or loss for the year comprises current and deferred tax. Income tax is recognised in the income statement except to the extent that it relates to items recognised directly to equity, in which case it is recognised in other comprehensive income.

### (i) Current taxation

Current income tax is the expected tax payable on the taxable income for the year, using tax rates enacted at the reporting date, and any adjustment to income tax payable in respect of previous years.

(ii) Deferred taxation

Deferred income tax is provided using the balance sheet liability method, providing for temporary differences between the carrying amounts of assets and liabilities for financial reporting purposes and the amounts used for taxation purposes. The amount of deferred tax provided is based on the expected manner of realisation or settlement of the carrying amount of assets and liabilities, using tax rates enacted at the reporting date.

A deferred tax asset is recognised only to the extent that it is probable that future taxable profits will be available against which the asset can be utilised. Deferred tax assets are reduced to the extent that it is no longer probable that the related tax benefit will be realised.

### 2. Summary of Significant Accounting Policies (Continued)

#### (e) Cash and cash equivalents

Cash comprises cash in hand, demand and call deposits with banks and very short-term balances with other brokers/dealers. Cash equivalents are highly liquid financial assets that are readily convertible to known amounts of cash (that is, with original maturities of less than three months), which are subject to insignificant risk of changes in value, and are used for the purpose of meeting short-term commitments. Cash and cash equivalents are carried at cost.

Bank overdrafts that are repayable on demand and form an integral part of the Group's cash management are included as a component of cash and cash equivalents for the purpose of the statement of cash flows.

#### (f) Resale and repurchase agreements

Transactions involving purchases of securities under resale agreements ('resale agreements' or reverse repos') or sales of securities under repurchase agreements ('repurchase agreements' or 'repos) are accounted for as short-term collateralised lending and borrowing, respectively. Accordingly, securities sold under repurchase agreements remain on the statement of financial position and are measured in accordance with their original measurement principles. The proceeds of sale are reported as liabilities and are carried at amortised cost. Securities purchased under resale agreements are reported not as purchases of the securities, but as receivables and are carried in the statement of financial position at amortised cost. It is the policy of the Group to obtain possession of collateral with a market value in excess of the principal amount loaned under resale agreements.

Interest earned on resale agreements and interest incurred on repurchase agreements are recognised as interest income and interest expense, respectively, over the life of each agreement using the effective interest method.

### (g) Financial assets

The Group classifies its financial assets into the following categories: financial assets at fair value through profit or loss, loans and receivables and available-for-sale financial assets. Management determines the classification of its financial assets at initial recognition.

#### Investments

#### Available-for-sale financial assets

The Group's investments in equity securities and certain debt securities are classified as available-forsale and are carried at fair value except for unquoted equity securities whose fair value cannot be reliably measured, which are carried at cost. Changes therein, other than impairment losses, and foreign exchange gains and losses on available-for-sale monetary items, are recognised in other comprehensive income and reflected in investment revaluation reserve in equity. When an investment is derecognised, the cumulative gain or loss in equity is transferred to profit and loss account.

# 2. Summary of Significant Accounting Policies (Continued)

### (g) Financial assets (continued)

### Investments at fair value through profit or loss

The Group carries some investment securities at fair value through profit or loss if they are held for trading or designated as such upon initial recognition. Financial instruments are designated at fair value through profit or loss if the Group manages such investments and makes purchase and sale decisions based on their fair value. Upon initial recognition, attributable transaction costs are recognised in profit or loss when incurred. Financial instruments at fair value through profit or loss are measured at fair value and changes therein are recognised in profit or loss.

### Loans and receivables

Loans and receivables are non-derivative financial assets with fixed or determinable payments, that are not quoted in an active market, and that the Group does not intend to sell immediately or in the near term.

Loans and receivables are measured at amortised cost using the effective interest method, except when the Group chooses to designate the loans and receivables at fair value through profit or loss.

### **Investment properties**

Investment properties are held for rental yields and fair value gains. These properties are not occupied by the Group. Investment properties are treated as a long-term investment and are carried at fair value, representing open market value determined annually by the directors or by independent valuers. Changes in fair values are recognised in the profit or loss. Rental income from investment properties is recognised in the profit and loss on a straight line basis over the tenor of the lease.

### (h) Borrowings

Borrowings (other than repos) are recognised initially at fair value net of transaction costs incurred. Borrowings are subsequently stated at amortised cost with any difference between cost and redemption value being recognised in the profit and loss account over the period of the borrowings using the effective interest method.

### (i) Earnings per stock unit

Earnings per stock unit ("EPS") is computed by dividing profit attributable to the equity holders of the parent of J\$3,091,709,000 (2011 – J\$1,775,861,000) by the weighted average number of stock units in issue during the period, numbering 1,581,567,000 (2011 – 1,463,386,752).

### (j) Managed funds

The company acts as agent and earns fees for managing clients' funds on a non-recourse basis under a management agreement. At 31 December 2012, funds managed in this way amounted to J\$21,292,302,000 (2011 – J\$18,463,336,000).

### (k) Comparative Information

Where necessary, comparative figures have been reclassified to conform with changes in presentation in the current period. In particular, segment report has been restated to reflect basis consistent with internal management reporting.
