DIRECTORS' STATEMENT

PERFORMANCE HIGHLIGHTS

Net Operating Revenue J\$17.60 billion

Net Interest Income J\$6.39 billion

Net Profit J\$17 billion

Earnings per Stock Unit J\$8.54

The Directors are pleased to announce that the JMMB Group Limited posted net profit of J\$17 billion and earnings per share of J\$8.54 for the nine months ended 31 December 2023. Buoyed by a material one-off occurrence, the Group's investment in Sagicor Financial Company (SFC) contributed J\$16 billion to the Group in share of profit over the 9-month period.

GROUP CEO'S COMMENTARY

JMMB Group remains resilient during a challenging operating environment.

The JMMB Group has demonstrated resilience in navigating the difficult operating landscape. Despite facing headwinds stemming from prolonged tight monetary policies, we have remained steadfast in our commitment to delivering sustainable value to our stakeholders.

We are pleased to report that the JMMB Group has achieved solid financial results in the third quarter of the financial year. Year to date performance stands at J\$17B, underscoring the effectiveness of the Group's diversification strategy.

For the quarter ending December 31, 2023, the JMMB Group posted net profit of J\$15.1B amidst the continued impact of high interest rates on our Banking and Investment business lines. As a result of elevated interest rates persistent in the market, we experienced margin compression in both our Banking and Investment banking lines. The high interest rates would also continue to limit our opportunities for trading gains having a material impact on our Investment business line. Notably, our Banking business line continues to perform credibly notwithstanding the challenges. Nevertheless, we have taken steps to cushion the impact and will accelerate our "smart growth" initiatives aimed at positioning the Group for long-term sustainable profitability. In the third quarter, the Group would have realized significant gains from SFC's acquisition of ivari Holdings, an individual life insurance company based in Canada. This underscores the efficacy and soundness of the diversification strategy of the JMMB Group.

During the quarter, the Group continued to maintain adequate regulatory capital requirements for each operating territory to ensure sustainability of the business. The Group continues to maintain the confidence of international rating agencies and that of its multilateral funding partners, IDB Invest.

Strategic Shifts to Drive Sustainable Profitability and Productivity

The Group is in the process of taking steps that will, in the medium term, result in an increase in yields on assets, lead to a reduction of its cost of funds and improving the efficiency of its operating model. Notably, the Group will accelerate growth in non-interest income revenue streams which will ultimately lead to improved levels of sustained profitability. Our team will continue to look for opportunities to internally extract greater value potential from our entities and position ourselves to capitalize on the tailwinds that may emerge.

Suite of Digital Solutions Being Rolled Out to Deepen Client Partnership

The Group has continued its thrust to make available solutions that will enhance the experience of clients doing business with JMMB. The Group has now ramped up its marketing and delivery of its Money Transfer Visa Prepaid Card solution, which allows clients to receive remittances seamlessly and conduct business online or at any Visa accepted Point of Sale machine. The team has also successfully delivered the long-awaited Business Visa Debit Card which will enable a more enriched client experience and ease of doing business for our business clients.

The Group is ready to roll out its Mobile App that will enrich the lives of clients as they interact with us. The Mobile App has now received all the requisite approvals and will be made available to the public on February 15, 2024. We are truly grateful for the commitment of clients as they have patiently awaited the delivery of this solution.

In addition to the Mobile App, we will continue to deepen our digital capabilities to improve client experience and improve the efficiency of our operations and one such solution that will allow us to do that is our Digital Onboarding Solution. The plan is to have Digital onboarding available in the branches by the end of February and online by the end of March.

Market Expansion through Barbados entrance

On October 12, 2023, we received approval from the Barbados Financial Services Commission to operate JMMB International Limited as a securities company, dealer and underwriter. As the JMMB Group continues to pursue its geographic diversification strategy, the entrance in Barbados will see us offering customized integrated solutions, tailored to match the unique needs of clients. We offer and will continue to build out a holistic approach to supporting clients' growth whilst partnering with them through their financial life cycle in a way that is easy, enjoyable, empowering and in their best interest.

Looking Ahead

Looking ahead, we acknowledge the prevailing uncertainties and challenges in the global economy, however, remain confident in our ability to navigate through these challenges and capitalize on emerging opportunities. We will continue to leverage our strengths, deepen our digital capabilities, improve client experience, and accelerate our smart growth strategic initiatives to generate sustainable medium-long term risk adjusted returns for our stakeholders. We will uphold our commitment to excellence as we pursue sustainable growth and value creation.

In conclusion, we would like to express sincere gratitude to our shareholders, stakeholders, and team members for their unwavering support and dedication. Together, we have achieved significant milestones and positioned JMMB Group for continued success in the years to come.

GROUP FINANCIAL PERFORMANCE

Net Operating Revenue

The Group posted net operating revenue of J\$17.60 billion for the nine months ended December 31, 2023, reflecting a decline of 7%. This was within the context of a challenging operating environment as global interest rates are much higher than the prior period. This especially impacted margins and consequently, net interest income declined by 24% to J\$6.39 billion. Further, market sentiment impacted fees and commission income as well as FX trading gains, these were 10% lower at J\$3.89 billion and 18% lower at J\$2.03 billion, respectively. Otherwise, clients continue to demonstrate confidence in the value of solutions and services as evidenced by the strong growth of the loan and investment portfolios.

Whilst the market condition is not conducive to significant trading gains as regular trading activities remained low, the Group continued to execute the strategy of identifying and successfully executing trading opportunities. Further, the monetary policy direction was reversed in the Dominican Republic to an expansionary stance. This was evidenced by five policy rate cuts during the period and resulted in higher levels of trading. Thus, trading gains were 43% higher at J\$5 billion.

Segment Contribution

The table below shows the contribution to net operating revenue by segments.

Net Operating Revenue	J\$'000	Contribution (%)
Financial & Related Services	6,630,939	38%
Banking & Related Services	10,575,293	60%
Other	392,814	2%
Total	17,599,046	100%

The Banking & Related Services segment contributed J\$10.6 billion which was 60% of operating revenue. This represented an 8% growth when compared to the prior period on account of strong growth in the loan book.

The Financial and Related Services segment contributed J\$6.6 billion or 38% of net operating revenue and reflected a decline of 21% compared to prior period. This largely reflected rising interest rates and the attendant market condition.

Operating Efficiency

Operating expenses increased from J\$14.68 billion to J\$16.48 billion and reflected inflationary increases as well as strategic spend related to longer-term initiatives aimed at improving the posture and positioning of the Group. Thus, operational efficiency moved from 78% to 94%. Nevertheless, the Group will continue to focus on projects aimed at yielding scale and efficiency and thus contribute to long term shareholder value.

Nine Months Highlights

Nine-month period ended 31 December 2023

(Expressed in Jamaican dollars unless otherwise indicated)

Interest in Associated Company

For the quarter ended 31 December 2023, Sagicor Financial Company Limited (SFC) opted to publish its audited results for the year ended 31 December 2023, utilizing the 90-day provision under the Toronto Stock Exchange (TSX). The audited results for the quarter were thus not available.

On 3 October 2023, (SFC) completed its acquisition of 100% equity stake in Ivari Holdings, a mid-size insurance company in Canada for a consideration of C\$375 million. A formal Business Acquisition Report (BAR) was filed with the Toronto Stock Exchange (TSX) on 14 December 2023, which highlighted a bargain purchase gain of US\$434.7 million of which 23.44% or J\$14.6 billion accrued to JMMB Group. This one-off gain has been included in the quarterly results utilizing the BAR report that was filed with the Toronto Stock Exchange (TSX).

The bargain purchase gain arising from the purchase price allocation is preliminary and therefore may be subject to change arising from SFC audit of its financial statements for the year ended 31 December 2023. The Group will therefore reflect any additional results from SFC in its fourth quarter ended 31 March 2024 on the release of SFC's audited results.

These results reflect the adoption of IFRS 17 – Insurance Contracts, which the Group adopted April 1, 2023. Given that SFC adopted a retrospective approach, the prior year's financial result was restated and reflected a share of loss of J\$2.6 billion (Note 7).

GROUP FINANCIAL POSITION

Total Assets

At the end of the reporting period, the Group's asset base totalled J\$726 billion, up 10% relative to the start of the financial year. This was due in part to a larger loan portfolio which grew by 14% to J\$202.7 billion. The credit quality of the loan portfolio continued to be comparable to international standards and the Group continues to maintain enhanced monitoring to mitigate against possible deterioration in credit quality. Further, there was a 6% increase in the investment portfolio at J\$365.7 billion.

Growth in the asset base over the nine-month period was primarily funded by an increase in customer deposits and notes payable. Deposits grew by 13% to J\$195.4 billion, while notes payable increased by 25% to J\$83.7 billion.

Capital

Company	Regulatory Measure	Minimum Requirement	31-Dec-23
Jamaica Money Market Brokers Limited	Regulatory capital to risk weighted assets ratio	10%	16.91%
JMMB Bank (Ja) Limited	Regulatory capital to risk weighted assets ratio	10%	12.51%
JMMB Bank (T&T) Limited	Regulatory capital to risk weighted assets ratio	10%	13.73%

Over the nine-month period, shareholders' equity increased by 47% to J\$72.8 billion. This was on account of increased net profit and recovery on asset prices investment revaluation reserves. Thus, the Group continues to be adequately capitalized and all

Nine Months Highlights

individually regulated companies within the Group continue to exceed their regulatory capital requirements. The performance of the major subsidiaries is shown in the table above.

Off-Balance Sheet Funds under Management

The Group continued to execute on its strategy to provide complete, customized financial solutions for each client. This includes off-balance sheet products such as pension funds, unit trusts and money market funds. For the period under review, congruent with the decline in asset prices globally, assets in these funds were adversely impacted. Nevertheless, the total invested in off-balance sheet products as at the end of December 2023 stood at J\$187.4 billion compared to J\$182.8 billion as at 31 December 2022.

Nine Months Highlights

Nine-month period ended 31 December 2023

The JMMB Group in the Community

JMMB Group remains committed to being actively and publicly involved in charitable and voluntary activities within the society, as a socially responsible company. As such, JMMB Group undertook a range of initiatives that were largely focused on entrepreneurship, educational development, transformational training and community outreach.

In **Jamaica**, JMMB Joan Duncan Foundation led philanthropic efforts geared towards educational development, transformational initiatives and outreach programmes for the most vulnerable. The Foundation partnered with GraceKennedy Foundation, donating J\$1 million to the GraceKennedy Campus Connect Food Bank initiative. This initiative is designed to alleviate the hunger of over 250 vulnerable students and reduce food insecurity across corporate area university campuses.

As it relates to transformational initiatives, the Foundation made an investment of J\$400,000 in the Franklyn Town Community Development Project, a sports development programme. This initiative is designed to empower at-risk young men to make positive and healthy lifestyle choices. It also helps these young men to develop life skills by creating socio-economic opportunities, reducing violence and crime as well as by promoting a sense of community. In further extending its impact to the community, the Foundation made several donations to improve the capacity building of organizations such as the Jamaica Cancer Society, in a bid to reduce cancer-related deaths and make testing more accessible.

Further, JMMB Joan Duncan Foundation bolstered the mission of the For the Child Foster Care Programme, a privately run programme, under Family Life Ministries, with a donation of J\$1 million. This donation supports foster parents by providing assistance for psycho-social support, psycho-educational assessments, language and speech interventions and other planned activities for the children. Additionally, the Foundation spearheaded its annual 'Share the Love' initiative in the Yuletide season, joining hands and hearts with several organizations, to provide approximately 3000 food packages valued at J\$16.2 million, to the less fortunate.

In the **Dominican Republic**, corporate social responsibility efforts remain focused on entrepreneurial activities and community outreach. JMMB continued its longstanding partnership with UNPHU Emprende, the Entrepreneur division of the Universidad Nacional Pedro Henriquez Ureña. This is designed to support youth entrepreneurship by providing funding and financial advisory services to the entrepreneurs in that programme. Additionally, JMMB provided training and financial solutions to the centre's clients and conducted personal finance sessions for UNPHU employees, to build financial literacy. As part of its community outreach efforts, the team also made donations to Madelaes and La Altagracia children's homes. This donation offset the cost of catering to the nutritional and educational needs of these children.

In **Trinidad & Tobago**, the Corporate Social Responsibility committee spearheaded several community outreach activities catering to the socio-economic needs of youth and other vulnerable individuals. This saw the JMMB team providing funding to several children's homes and churches to support their mandate of catering to the needs of the less fortunate and improve their capacity. Additionally, in the true spirit of the season, the JMMB team also donated towards special Christmas meals for the students at Santa Cruz Presbyterian School.

Notes to the Financial Statements

Nine-month period ended 31 December 2023

(Expressed in Jamaican dollars unless otherwise indicated)

2. Summary of Significant Accounting Policies

(a) Basis of preparation

The Group's condensed consolidated financial statements have been prepared in accordance with International Financial Reporting Standards (IFRS). The condensed consolidated financial statements should be read in conjunction with the accounting policies as set out in Note 2 and 37 of the audited financial statements for the year ended 31 March 2023.

All amounts are stated in Jamaican dollars unless otherwise indicated.

(b) Basis of consolidation

The consolidated financial statements include the assets, liabilities and results of operations of the Company and its subsidiaries presented as a single economic entity.

Subsidiaries are all entities over which the Company has the power to govern the financial and operating policies, generally accompanying a shareholding of more than one half of the voting rights of an investee, where there is exposure to variability of returns and the Company can use its power to influence the returns. The existence and effect of potential voting rights that are currently exercisable or convertible are considered when assessing whether the Company controls another entity. Subsidiaries are consolidated from the date on which control is transferred to the Group. They are no longer consolidated from the date that control ceases.

Intra-group transactions, balances and unrealised gains on transactions between Group companies are eliminated. Unrealised losses are also eliminated unless the transaction provides evidence of impairment of the asset transferred. Accounting policies of the subsidiaries are consistent with those of the Group.

The Group uses the acquisition method of accounting for business combinations. The cost of acquisition is measured as the fair value of the assets given, equity instruments issued and liabilities incurred or assumed at the date of exchange. Identifiable assets acquired and liabilities and contingent liabilities assumed in a business combination are measured at their fair values at the acquisition date, irrespective of the extent of any non-controlling interest. The excess of the cost of acquisition over the fair value of the Group's share of the identifiable net assets acquired is recorded as goodwill. If the cost of acquisition is less than the fair value of the net assets of the subsidiary acquired, the difference is recognised directly in the consolidated profit and loss account.

The Group uses predecessor value (book value) method of accounting for business combinations with entities under common control. Any differences between the consideration paid and the net assets of the acquired entity is recognised in equity.

(i) Non-controlling interests

Non-controlling interests (NCI) are measured at their proportionate share of the acquiree's identifiable net assets at the acquisition date.

Changes in the Group's interest in a subsidiary that do not result in a loss of control are accounted for as equity transactions.

(ii) Loss of control

When the Group loses control over a subsidiary, it derecognises the assets and liabilities of the subsidiary, and any related non-controlling interest (NCI) and other components of equity. Any resulting gain or loss is recognised in profit or loss. Any interest retained in the former subsidiary is measured at fair value.

Notes to the Financial Statements

Nine-month period ended 31 December 2023

(Expressed in Jamaican dollars unless otherwise indicated)

2. Summary of Significant Accounting Policies (continued)

(c) Interest in associated company

Associated company is an entity over which the Group has significant influence but not control, generally accompanying a shareholding between 20% and 50% of the voting rights. Investments in associates are accounted for by the equity method of accounting and are initially recognised at cost. The Group's investment in associated company includes goodwill (net of any accumulated impairment loss) identified on acquisition.

The Group has adopted IFRS 17 – Insurance Contracts ("IFRS 17") for the first time on 1 April 2023 as the standard is relevant to its associate Sagicor Financial Company Limited (SFC). IFRS 17 replaces IFRS 4 – Insurance Contracts ("IFRS 4"), which is effective for annual reporting periods beginning on or after 1 January 2023, to be applied retrospectively. The overall impact of adopting IFRS 17 will have a significant impact on total assets and profit for the period of the associate, which will similarly impact the Group to the extent of their investment in the associate (note 6).

3. Share of profit/(loss) of associate

For the quarter ended 31 December 2023, Sagicor Financial Company Limited (SFC) has opted to publish its audited results for the year ended 31 December 2023, utilizing 90 day provision under the Toronto Stock Exchange (TSX). The results for the quarter was thus not available.

On 3 October 2023, (SFC) completed its acquisition of 100% equity stake in Ivari Holdings, a mid-size insurance company in Canada for a consideration of C\$375 million. A formal Business Acquisition Report (BAR) was filed with the Toronto Stock Exchange (TSX) on 14 December 2023, which highlighted a bargain purchase gain of US\$434.7 million of which 23.44% or J\$14.6 billion accrued to JMMB Group. This one off gain has been included in the quarterly results utilizing the BAR report that was filed with the Toronto Stock Exchange (TSX).

The bargain purchase gain arising from the purchase price allocation is preliminary and therefore may be subject to change arising from SFC audit of its financial statements for the year ended 31 December 2023. The Group will therefore reflect any additional earnings from SFC in its fourth quarter ended 31 March 2024 on the release of SFC's audited results.

These results reflect the adoption of IFRS 17 – Insurance Contracts, which the Group adopted April 1, 2023. Given that SFC adopted a retrospective approach, the prior year's financial result was restated and reflected a share of loss of J\$2.6 billion (Note 7).

4. Earnings per stock unit

Earnings per stock unit ("EPS") is computed by dividing profit attributable to the equity holders of the parent of J\$16,708,907,000 (2022 – (J\$245,091,000)) by the weighted average number of stock units in issue during the period, numbering 1,955,552,532 (2022 – 1,955,552,532).

5. Managed funds

The Group acts as agent and earns fees for managing clients' funds on a non-recourse basis under a management agreement. At 31 December 2023, funds managed in this way amounted to J\$187,376,315,571 (2022 – J\$182,842,762,611).

Notes to the Financial Statements

Nine-month period ended 31 December 2023

(Expressed in Jamaican dollars unless otherwise indicated)

6. Comparative Information

Where necessary, comparative figures have been reclassified to conform to changes in presentation in the current period.

7. Restatement

The Group's associated company Sagicor Financial Company Limited (SFC) adopted IFRS 17 – Insurance Contracts, effective January 1, 2023. This standard has brought significant changes to the accounting for insurance and reinsurance contracts. SFC has adopted a retrospective approach, which has resulted in restatement of its financial results. The Group has therefore restated the comparative amounts in the associated company effective April 1, 2023 which is highlighted below.

Except for the changes noted below, The Group has consistently applied the accounting policies as set out in its consolidated annual financial statement for the period ended 31 March 2023.
