Net Loss J\$686.4 million

GROUP CEO'S COMMENTARY

JMMB Group's operating revenues and operating profit demonstrate significant growth over the comparative period in the previous year.

Operating revenues

JMMB Group for the three-month period ended June 30, 2025, achieved solid core performance delivering operating revenue of J\$7.49 billion. This reflected growth of J\$1.83 billion or 32% over the prior period. Growth in operating revenues outstripped growth in operating expenses by over J\$1.24 billion, which grew by 9% or J\$592.3 million.

Strategic imperatives drive performance

This improved operating performance is driven by cost containment, sustainable capital-efficient growth; expansion of non-interest revenue; portfolio rebalancing to enhance yields and active management of cost of funds while driving sales productivity and operating efficiency. These pillars continue to shape the Group's operations across markets and business lines.

The quarter's results reflect a continued recovery in core operations, opportunistic trading in Jamaica and the Dominican Republic along with the Trinidad and Tobago operations which continue to deliver consistent and improved results.

GOJ's asset tax continues to negatively impact profits

JMMB Group continues to account for the full year's asset taxes in the first quarter of the financial year. The distortionary non-income tax of J\$1.17 billion continues to be a drag on Jamaica and Group profits and negatively distorts the results for the quarter. The Group's results was also adversely impacted by share of losses from its associates of \$290 million as further explained later in this report.

As a result, despite the significant improved operational performance, JMMB Group Limited posted net loss of J\$686.4 million for the 3 months ended 30 June 2025.

Three Months Highlights

Three-month period ended 30 June 2025
(Expressed in Jamaican dollars unless otherwise indicated)

SFC core performance strong, net profits negatively impacted by market volatility

The Group's associated companies reported a combined net loss of J\$290 million. This was mainly due to a share of loss of J\$251 million from associate company, Sagicor Financial Company (SFC). SFC core earnings continues to be strong, however they were impacted by market volatility in the United States and Canada during the reporting quarter. Despite the negative impact to net earnings, total comprehensive income was positive to equity shareholders amounting to US\$39.8 million, of which US\$11.6 million or J\$1.8 billion accrued to JMMB Group that strengthen the Group's capital. The investment in SFC remains an accretive long-term investment that aligns with the Group's vision of building a diversified, regionally integrated financial services model. We remain confident that the long-term value from this partnership will contribute meaningfully to shareholder returns in the years ahead.

JMMB Group remains strongly capitalized and shows significant improvement driven by SFC core earnings

JMMB Group Capital levels increased from J\$55.6 billion at the end of March 2025 to J\$60.1 billion at the end the first quarter. This was mainly driven by positive movements in total comprehensive arising from share of reserves from SFC's performance. This underscores the Group's and SFC's continued focus on financial resilience and prudent risk management, especially in a time of elevated global uncertainty.

Banking business line

The Banking business line remains a key part of JMMB Group's regionally integrated financial services model and delivered solid results for the quarter as the banking business line contributed 61% or J\$4.6 billion to Group operating revenues.

The Investment Business line contributed 39% or J\$2.9 billion to Group operating revenues. This positive result was driven by robust growth in net interest income, strong gains on securities trading, and improved FX margins. Additionally, other fees and commissions showed improvement over the prior period. Overall, the investment business line performed creditably despite volatile market conditions.

The Group's diversified business model continues to be its winning strategy along with the strategic execution of its smart growth initiatives, which are delivering the results needed towards achieving its strategic goals.

Three Months Highlights

Three-month period ended 30 June 2025

(Expressed in Jamaican dollars unless otherwise indicated)

Country diversification

Jamaica was the main driver of improved performance, benefiting from the MPP programme, tighter cost management, and strategic focus on net interest income and FX trading. While Trinidad and Tobago maintained consistent performance, with the Dominican Republic's Puesto de Bolsa delivering strong gains from securities trading. Jamaica contributed 54%, Dominican Republic 21%, Trinidad and Tobago 15% and Barbados 9% to gross operating revenue for the Group.

JMMB Bank launches new branch in Trinidad and Tobago

The JMMB Group continues to expand its client reach in Trinidad and Tobago, with the opening of a new bank branch on June 12, 2025. JMMB Bank TT officially commissioned the newest location JMMB Bank, Lowlands Mall, Tobago. This marks a significant milestone for the Group in its journey of expanding physical footprint across Trinidad and Tobago.

Enhancing our client value proposition, digitally

In keeping with its client value proposition of providing clients with a seamless multi-channel experience, the JMMB Group continues to enhance its digital capabilities to better serve its clients. Several functionalities were launched in the Dominican Republic during the reporting period. Firstly, bank clients now enjoy the ease of paying bills online using *MoneyLine* with the added peace of mind as they receive transaction notification alerts. Further, users will be able to see the balance that is currently due for the billers they have added to their payees' listing. Secondly, the pilot was completed for the launch of DR Bank's Visa enabled ATMs to be commissioned in the coming quarter. These digital capabilities again will create greater access and ease of transaction for JMMB clients through its digital channels.

In Jamaica, attorneys-at -law can benefit from the new JMMB Attorney Advantage chequing account, which was rolled out in May 2025. It is structured to allow for easy separation of client funds allowing for seamless reconciliation, fee tracking and statement generation using Moneyline.

Looking ahead

The JMMB Group continues to navigate an environment of heightened global uncertainty, shaped by shifting trade policies emanating from the US, unclear interest rate paths in major developed markets, and ongoing geopolitical tensions. These dynamics directly influence the markets in which it operates and the needs of its clients. The Group remains vigilant in its risk management, closely monitoring these changes, understanding their implications, and adapting accordingly.

JMMB Group remains resilient and committed to navigating the challenges through its Smart Growth Strategy. Therefore, the team's focus continues to be on building more resilient and diversified revenue streams, maintaining strong capital and liquidity buffers to navigate potential shocks, and creating capacity to invest in future opportunities. The Group will also remain focused on improving efficiency and productivity to drive long-term value.

Three Months Highlights

Three-month period ended 30 June 2025
(Expressed in Jamaican dollars unless otherwise indicated)

GROUP FINANCIAL PERFORMANCE

Net Operating Revenue

The JMMB Group continued on its growth trajectory for the three months ended June 30, 2025. Net operating revenue was J\$7.49 billion, reflecting growth of J\$1.83 billion or 32% as all revenue lines recorded significant increase. While the operating environment continued to be characterized by elevated uncertainty, particularly related to geopolitical conflicts, tariff wars, volatile oil prices, and persistently high interest rates, the Group continued to execute on strategies to ensure that its financial performance remained credible.

The US Federal Reserve continue to hold maintained its interest rates for the review period with no cuts since December 2024. This reflected its cautious stance amid persistent inflation concerns given the tariffs imposed. Similarly, the central banks of the Dominican Republic and Trinidad and Tobago have maintained their benchmark interest rates at 5.75% and 3.5% respectively, since the start of the financial year. Trinidad and Tobago have maintained this rate since March 2020. Encouragingly, Jamaica saw a positive shift over the reporting period with the Bank of Jamaica (BOJ) reducing its interest rate from 6% to 5.75% in May, as inflation has remained within the bank's target range since September 2024 and the outlook was noted to be favorable.

Notwithstanding, in the territories in which the JMMB Group operates, the accommodative monetary stance has resulted in improved market liquidity and interest rates have been trending downwards. This is coupled with the Group's robust cost management strategy within the broader mandate of a target funding profile which is less sensitive to the interest rate cycle. Thus, net interest income was J\$3.5B compared to J\$2.7B for the corresponding period last year. While interest rates are moving in the right direction, the level of reduction was not sufficient to facilitate active trading in broad emerging market assets. Nevertheless, we continued to execute on pockets of trading activities, primarily in DR and Jamaica. Consequently, fixed income trading gains grew by 46% to J\$1.9 billion and FX trading gains increased by 69% to J\$546 million.

Also, fees and commission income rose by 13% to J\$1.41 billion as clients continue to demonstrate confidence in the value of solutions and services. This was particularly the case with our off-balance sheet solutions such as pension funds, unit trusts and money market funds. The Group continued to execute on its strategy to provide complete, customized financial solutions for each client. Thus, the total invested in off-balance sheet products as at the end of June 2025 stood at J\$242.2 billion compared to J\$217.6 billion as at 30 June 2024.

Segment Contribution

The table below shows the contribution to net operating revenue by segments.

Net Operating Revenue	J\$'000	Contribution (%)
Financial & Related Services	2,887,882	39%
Banking & Related Services	4,602,874	61%
Other	1,434	0%
Total	7,492,191	100%

The Banking & Related Services segment contributed J\$4.60 billion which was 61% of operating revenue. This represented an 17% growth when compared to the prior period on account of strong growth in the loan book and

less margin compression.

The Financial and Related Services segment rebounded, contributing J\$2.89 billion or 39% of net operating revenue and reflected strong growth of 69% compared to prior period. This evidenced the effectiveness of the spread

Three Months Highlights

Three-month period ended 30 June 2025

(Expressed in Jamaican dollars unless otherwise indicated)

management strategy coupled with a downward trend in interest rates. Further, the team remained nimble to identify and capitalize on trading opportunities.

Operating Efficiency

Operational efficiency remains a key area of strategic focus for the business. This is managed through its strategic cost management framework that ensures optimal resource allocation to satisfy the operating needs of the business and to drive growth. For the first quarter under consideration, operating expenses increased from J\$6.36 billion to J\$6.95 billion and reflected inflationary increases as well as strategic spend related to longer-term initiatives aimed at improving the posture and positioning of the Group. Going forward, the Group will continue to focus on optimizing its structure through its digital transformation program, standardization, and centralization, as well as optimizing its sales productivity by the continued integration of the sales segments.

Interest in Associated Company

For the quarter ended 30 June 2025, the associated companies within the Group reflected overall net loss of J\$290.3 million. This was mainly due to Sagicor Financial Company Limited (SFC), published loss to common shareholders of US\$6.4 million of which US\$1.6 million or J\$251.4 million accrued to the Group. SFC core earnings continues to be strong which amounted to US\$46 million, however entity was impacted by marked-to-market losses arising from volatility in United States and Canada. Total comprehensive income was positive to common shareholders amounting to US\$39.8 million of which US\$11.6 million or J\$1.8 billion accrued to the Group that strengthen Group capital.

GROUP FINANCIAL POSITION

Total Assets

At the end of the reporting period, the Group's asset base grew by 3% to J\$727.5 billion, due mainly to the investment portfolio. This was due largely to timing as well as prudent liquidity management. The loan portfolio grew by 1% to J\$219.8 billion and the credit quality of the loan portfolio continued to be comparable to international standards and the Group continues to maintain enhanced monitoring to mitigate against possible deterioration in credit quality. In a similar vein, liabilities rose by 3% to J\$667.4 billion and customer deposits grew by 5% to J\$237.8 billion.

Capital

Company	Regulatory Measure	Minimum Requirement	30-Jun-25
Jamaica Money Market Brokers Limited	Regulatory capital to risk weighted assets ratio	10%	16.42%
JMMB Bank (Ja) Limited	Regulatory capital to risk weighted assets ratio	10%	12.45%
JMMB Bank (T&T) Limited	Regulatory capital to risk weighted assets ratio	10%	14.75%

Over the three-month period, shareholders' equity grew by 8% to J\$60.1 billion. This was largely on account of improved asset prices which was reflected in investment revaluation reserves. Consequently, the Group continues to be adequately capitalized

and all individually regulated companies within the Group continue to exceed their regulatory capital requirements. The performance of the major subsidiaries is shown in the table above.

Three Months Highlights

Three-month period ended 30 June 2025
(Expressed in Jamaican dollars unless otherwise indicated)

The JMMB Group in the Community

JMMB Group remains committed to forging and maintaining genuine relationships with the wider society across Jamaica, Trinidad & Tobago, and the Dominican Republic. During this period, the Group's corporate social responsibility efforts focused on educational development, transformational training, entrepreneurship, and community outreach initiatives, in alignment with our vision of love and mutual respect.

In *Jamaica*, the JMMB Joan Duncan Foundation disbursed over J\$26 million in donations, supporting a range of impactful initiatives. A key national partnership remains with Project STAR, which received J\$4.8 million to support community-led action and economic development in underserved communities. The Foundation also facilitated job seeker and community workshops through this initiative. Additionally, the Conversations for Greatness (CFG) programme reached 445 individuals through 19 workshops, including sessions at teacher training institutions. The MyCFG mobile app was upgraded to Version 2, enhancing digital access to CFG content.

In education, the Foundation received 536 scholarship applications, supported the Girls in ICT Day event for 84 girls, and partnered with Ntukuma Jamaica to host a storytelling showcase for 120 students. The Joan Duncan Memorial Lecture explored ethics and development and received strong media coverage.

The Foundation also supported 75 at-risk children through the Child Resiliency Programme, trained 156 educators, and contributed to rebuilding the Performing Arts classroom at St. Jago High School. Other outreach included Labour Day volunteerism and medical equipment donations to Port Antonio Hospital.

In entrepreneurship, eight Steps to Work workshops were held, and J\$1 million in grants awarded to winners of the JMMB SME Accelerator Pitch Competition. The Foundation also recommitted to the Vincent HoSang UWI Venture Competition.

The CSR committee in *Trinidad & Tobago* focused on literacy, financial education, and kindness. The team launched "Read Across T&T", donating over 100 books to 30 primary schools and engaging students in creative reading sessions.

To address bullying and promote empathy, the team partnered with The Kindness Club, educating students from 10 schools—both primary and secondary—on financial literacy, saving, and investing, while fostering safer school environments.

In the *Dominican Republic*, a partnership was initiated with the Saint Jude Foundation to support children and youth undergoing medical treatments, covering living and educational expenses through the sponsorship of sports tournaments. The team also engaged in volunteer activities to assist with Saint Jude's operations. Additionally, strategic planning sessions commenced to establish a formal CSR program aligned with JMMB Group's guidelines, set to launch in 2025.

Notes to the Financial Statements

Three-month period ended 30 June 2025

(Expressed in Jamaican dollars unless otherwise indicated)

2. Summary of Material Accounting Policies

(a) Basis of preparation

The Group's condensed consolidated financial statements have been prepared in accordance with International Financial Reporting Standards (IFRS). The condensed consolidated financial statements should be read in conjunction with the accounting policies as set out in Note 2 and 36 of the audited financial statements for the year ended 31 March 2025.

All amounts are stated in Jamaican dollars unless otherwise indicated.

(b) Basis of consolidation

The consolidated financial statements include the assets, liabilities and results of operations of the Company and its subsidiaries presented as a single economic entity.

Subsidiaries are all entities over which the Company has the power to govern the financial and operating policies, generally accompanying a shareholding of more than one half of the voting rights of an investee, where there is exposure to variability of returns and the Company can use its power to influence the returns. The existence and effect of potential voting rights that are currently exercisable or convertible are considered when assessing whether the Company controls another entity. Subsidiaries are consolidated from the date on which control is transferred to the Group. They are no longer consolidated from the date that control ceases.

Intra-group transactions, balances and unrealised gains on transactions between Group companies are eliminated. Unrealised losses are also eliminated unless the transaction provides evidence of impairment of the asset transferred. Accounting policies of the subsidiaries are consistent with those of the Group.

The Group uses the acquisition method of accounting for business combinations. The cost of acquisition is measured as the fair value of the assets given, equity instruments issued and liabilities incurred or assumed at the date of exchange. Identifiable assets acquired and liabilities and contingent liabilities assumed in a business combination are measured at their fair values at the acquisition date, irrespective of the extent of any non-controlling interest. The excess of the cost of acquisition over the fair value of the Group's share of the identifiable net assets acquired is recorded as goodwill. If the cost of acquisition is less than the fair value of the net assets of the subsidiary acquired, the difference is recognised directly in the consolidated profit and loss account.

The Group uses predecessor value (book value) method of accounting for business combinations with entities under common control. Any differences between the consideration paid and the net assets of the acquired entity is recognised in equity.

(i) Non-controlling interests

Non-controlling interests (NCI) are measured at their proportionate share of the acquiree's identifiable net assets at the acquisition date.

Changes in the Group's interest in a subsidiary that do not result in a loss of control are accounted for as equity transactions.

(ii) Loss of control

When the Group loses control over a subsidiary, it derecognises the assets and liabilities of the subsidiary, and any related non-controlling interest (NCI) and other components of equity. Any resulting gain or loss is recognised in profit or loss. Any interest retained in the former subsidiary is measured at fair value.

Notes to the Financial Statements

Three-month period ended 30 June 2025

(Expressed in Jamaican dollars unless otherwise indicated)

2. Summary of Material Accounting Policies (continued)

(c) Interest in associated company

Associated company is an entity over which the Group has significant influence but not control, generally accompanying a shareholding between 20% and 50% of the voting rights. Investments in associates are accounted for by the equity method of accounting and are initially recognised at cost. The Group's investment in associated company includes goodwill (net of any accumulated impairment loss) identified on acquisition.

3. Earning per stock unit

Earning per stock unit ("EPS") is computed by dividing profit attributable to the equity holders of the parent of (J\$765,264,095) (2024 – (J\$1,541,463,090)) by the weighted average number of stock units in issue during the period, numbering 1,955,552,532 (2024 – 1,955,552,532).

4. Managed funds

The Group acts as agent and earns fees for managing clients' funds on a non-recourse basis under a management agreement. At 30 June 2025, funds managed in this way amounted to J\$242,205,874,168 (2024 – J\$217,617,574,782).

5. Comparative Information

Where necessary, comparative figures have been reclassified to conform to changes in presentation in the current period.
